MAIN STREET REHABILITATION PROJECT

In the coming weeks, Teichert Construction Company, under contract to the City of Wheatland, will begin construction on the Main Street Rehabilitation Project. The project involves constructing pedestrian ramps, sidewalks, pavement repair, pavement grinding, pavement overlay, and new pavement markings on Main Street between Highway 65 and Spenceville Road. Construction is scheduled to begin on or about November 5 and last for 7-weeks. “No-Parking” signs will be posted at least 24-hours in advance for the specific days when parking restrictions are needed. The following is an approximate schedule of the work to be performed (weather permitting).

November 5th through November 20th: Removal and replacement of curbs, sidewalks and pedestrian ramps will be performed during the day between 7AM to 5PM. Only minor traffic delays are anticipated. This work will cause intermittent closures of driveways, street parking, sidewalks and intersecting streets. Direct or indirect access to businesses and residents will be maintained at all times.

November 23rd through November 25th (Thanksgiving week): Pavement repairs will be made in the street at various locations (patchwork). Pavement grinding along the edges and across the whole street width will also be performed leaving the street surface rough. This work will require single lane traffic control (flaggers & one lane for alternating direction of travel) and no-parking restriction for on-street parking. The work is noisy and dusty and will be performed during the day between 7AM to 5PM Monday, Tuesday & Wednesday.

November 30th through December 4th: Paving operations will be conducted during the day between 7AM and 5PM. Single lane traffic control will be required. Closures of driveways and intersecting streets will be required for up to an hour at a time however direct or indirect access to businesses will be maintained at all times.

December 7th through December 18th: Construction of detached (parkway) sidewalks and pavement markings (stripes) will be performed during the day between 7AM to 5PM. Very minor traffic delays and some parking restrictions are anticipated. Direct or indirect access to businesses and residents will be maintained at all times.

This schedule is subject to change. Please check the City’s website for any schedule changes or updates at <http://www.wheatland.ca.gov/>

Every effort will be made to provide the best access possible to businesses and residences. The City and Teichert Construction appreciate your patience during this much needed rehabilitation of Main Street. If you have any questions or concerns about this project please call the City at 530-633-2761.
